THE CHALLENGE

Running a Growing Business Shouldn't Feel This Hard

Most small and medium businesses lose time, money and control to the same five problems:

01 Sales, purchases and stock are tracked in separate registers or scattered Excel sheets.

02 There's no real-time visibility into stock levels or cash position at any given moment.

03 Manual accounting means errors, delays, and no reliable financial reports when you need them.

04 Customer and supplier balances are hard to track, reconcile, and follow up on.

05 There's no control over who can view or edit sensitive business data.

iKeep ERP brings all of this into one secure, connected system — built for how your business actually runs.

INTRODUCING IKEEP ERP

One System. Every Part of Your Business.

iKeep ERP is a cloud-based business management system built to run your sales, purchases, inventory, accounts and reporting from a single dashboard — accessible anytime, from anywhere.

Cloud-Based & Accessible

Log in from any device with an internet connection — your business data is always with you.

Real-Time Data

Every sale, purchase and payment updates your records instantly — no waiting, no guessing.

Control & Accountability

Role-based permissions, approvals and an audit log (Professional plan and above) show who did what, and when.

Built to Grow With You

Start with one user and move up to more users, companies and warehouses as your business grows.

KEY FEATURES

Everything Your Business Needs, In One Place

Fourteen connected modules. Some are part of higher plans — see the pricing pages.

Sales & Invoicing

Invoices, estimates, sale orders, credit notes and delivery challans.

Purchase Management

Bills, purchase orders and debit notes, with supplier balances kept in sync.

Inventory Control

Live stock levels, stock alerts, physical stock take and adjustments.

Accounting & Reports

Chart of accounts, journal, ledgers and 20+ reports including P&L and Balance Sheet.

Payments & Receipts

Cash, bank and online payments, multiple bank accounts and transfers.

Cheque Management Professional+

Multi-cheque receipts, deposit, endorse and bounce tracking.

Expenses

Record every expense by category and see where the money goes.

Customers & Suppliers

Full ledgers, receivables, payables and aging for every party.

Production & Costing Business

BOM, labour and factory overheads — know the real cost of each product.

Roles & Approvals Professional+

Custom roles, approval workflow, audit log and login-device tracking.

Anomaly Detector Business

Nightly checks flag unusual entries for you to review.

Backup

Manual backup on every plan; automatic daily backup on Business.

Point of Sale (POS) Business

Fast counter billing for walk-in customers, linked to your stock and accounts.

Installment Sales

Sell on installments and track every due date and recovery.

WHY IKEEP

Why Businesses Choose iKeep ERP

- Built around real business workflows — sales, purchases, stock and accounts connected in one system.
- Multi-user and multi-company support, depending on your plan.
- Local support from a real team — priority support on Professional and above.
- Clear yearly pricing, with the one-time Business setup fee stated up front.
- Each company's data is kept separate from every other company's.

INVESTMENT

Simple, Transparent Annual Pricing

Choose the plan that fits your business today — upgrade as you grow. All prices below are annual.

STARTER

1 user · 1 company · 1 warehouse

PKR 8,000

per year

- Sales: invoice, estimate, sale order, credit note, delivery challan
- Purchase: bill, purchase order, debit note
- Payments & receipts — cash, bank, online
- Expenses, multiple banks & bank transfer
- Accounts, Journal & Capital
- Customers, suppliers & products
- Installment sales & recovery tracking
- Inventory (one warehouse)
- Reports (all except Production reports)
- Print / PDF / Share, manual backup
- No approval step — documents are approved automatically

Best for solo owners & small shops

★

PROFESSIONAL

3 users · 1 company · 1 warehouse

PKR 10,000

per year

- Everything in Starter
- Users, Roles & Permissions
- Approval workflow
- Cheque Register: deposit, endorse, bounce
- Audit Log & Login Devices
- Priority support

Best for teams working together

INVESTMENT

More Ways to Scale

As your team and operations grow, move up whenever you are ready.

BUSINESS

10 users · 2 companies · multi-warehouse

PKR 12,000

per year + PKR 40,000 one-time setup

- Everything in Professional
- Point of Sale (POS)
- Production, BOM & Costing
- Multi-warehouse & Stock Transfer
- Anomaly Detector
- Automatic daily backup
- Dedicated onboarding

Best for multi-branch & growing businesses

CUSTOM

Your scale, your modules

Contact us

priced by requirement

- Users, companies & warehouses as you need
- Any mix of modules
- Quoted after understanding your requirement

For specific requirements

Extra users can be added to any plan at PKR 1,500 per user per year (pro-rated to your plan's expiry). The setup fee applies to the Business plan only. After a paid plan ends there is a 7-day grace period, then the company becomes read-only; your data stays safe.

PAYMENT

Simple, Flexible Payment Options

Pay by Easypaisa — every payment is documented with a formal invoice.

30-Day Free Trial

Every new company starts with all modules free for 30 days.

Easypaisa

Pay by mobile wallet and submit the Transaction ID in the app — activated after verification.

Simple Annual Billing

One payment covers your full year — no monthly reminders.

Invoice-Based Billing

A formal invoice is issued for every payment.

The Business plan includes a one-time setup fee of PKR 40,000, then PKR 12,000 billed annually. Starter and Professional plans have no separate setup fee.

ADDITIONAL SERVICES

Need More Than an ERP? We Build That Too.

Beyond iKeep ERP, our team also builds custom web platforms for your business — quoted separately based on your requirement.

Website Development

A professional business website — designed, developed and launched to represent your brand online.

E-Commerce Store Development

An online store to sell your products, built as a separate project for your business.

These are separate projects and are not part of the iKeep ERP software. Pricing is quoted separately based on scope and requirement — get in touch to discuss your project.
